WOULD BE A  
GREAT SERVICE TO THE  
The consumption of added sugar has  
jumped 25 percent since 1984,  
squeezing healthy foods out of the  
diet. As a member of the Center  
for Science in the Public Interest  
(CSPI), I urge the FDA to establish a  
"Daily Reference Value" for added  
sugar of 40 grams and to require  
labels to disclose how much added  
sugar a food contains.

Ms. Henney -

I think this  
idea would result  
in better health  
for so many  
people.
